FREE Pre-School Event

Contemporary challenges and solutions for protecting heritage in the East Midlands

Tuesday 7th May - 17:30 - 19:30

Urban Room, [38 Carrington Street](#), Nottingham

- 17:30 Networking and opportunity to view Urban Room architectural exhibition
- 18:00 *Climate Change & Built Heritage; a multi-faceted story*
Cathy Daly, Lecturer in Conservation, School of History and Heritage, University of Lincoln
- 18:30 *The renaissance of Derbyshire Historic Buildings Trust's renaissance: a new model for the future*
Derek Latham, Conservation Architect, Landscape Architect, Town Planner and Urbanist. Visiting professor University of Derby.
- 19:00 Q+A

Dr Cathy Daly is a Senior Lecturer in Conservation, School of History and Heritage, at the University of Lincoln. She is an archaeological conservator by profession and teaches on the BA, Graduate Diploma and MA courses on the conservation of cultural heritage. Cathy has been conducting research on the intersection of climate change and cultural heritage since 2007, focussing on assessing vulnerabilities and monitoring impacts. In 2018 Lincoln Conservation, together with lead partners Carrig Conservation Ltd and the Irish Green Building Council, was successful in its bid to write the government of Ireland's Climate Change Adaptation Plan for Built and Archaeological Heritage. Cathy is the lead researcher and author for this project. She is also a Bureau member of the ICOMOS International Working Group on Climate Change. (+44(0)1522 835036 www.drcathydaly.com)

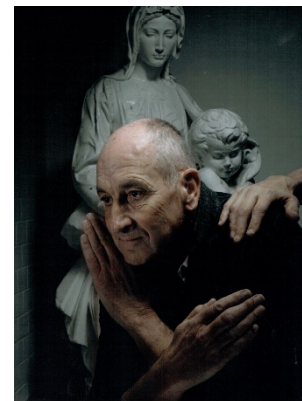

Climate Change & Built Heritage; a multi-faceted story

The talk will give an overview of the ways that climate change and built heritage intersect. It will consider possible impacts and approaches to adaptation, as well as ways to leverage heritage in order to mitigate climate change in the future.

Derek Latham HonDPr Dip Arch RIBA Dip TP MRTPI Dip LD MLI AABC IHBC AoU AHI FRSA is a Conservation Architect, Landscape Architect, Town Planner and Urbanist, visiting professor - University of Derby. Having led the Design and Conservation Team at the County in the 1970's, during which time he helped set up the Derbyshire Historic Buildings Trust becoming the first chair of its Technical Panel, he left to start his own award winning practice in 1980 working for a range of Clients from the HRH Queen Elizabeth and HRH Prince of Wales, English Heritage and the National Trust, to corporations and local authorities, and community groups and private individuals.

His philosophy of contextual minimal intervention applied equally to his urban master planning as to his creative use of historic fabric (Creative Re-use of Buildings: Donhead 2000 2 Vols)

Retired from practice in 2017 Derek now chairs the Derbyshire Historic Buildings Trust (DHBT) and the Derwent Valley Trust and is re-invigorating and relaunching the Charities with a renewed ethos.

The renaissance of Derbyshire Historic Buildings Trust's renaissance: a new model for the future.

Derek will be explaining the plans and progress of the Derbyshire Historic Buildings Trust's renaissance and asking if this could be a new model for the future. All those with experience of, and interest in, historic building charities and what they can achieve in the current fiscal climate are invited to attend and contribute to the discussion.
